

JUDGE I. G. KIMBALL PLANS VACATION RUDOLPH VISITS HANDLE HIGHLANDS

Jurist Will Take Southern Trip If
He Gets Regular
Leave.

Commissioner Will Try to
Get Playground for
Suburb Next Year.

Judge I. G. Kimball, of the Police Court, is planning a vacation trip to the Bermudas, the West Indies and return by way of Havana and New Orleans. He will leave Friday, February 11. The judge said today:

"I haven't had my leave yet and I want to get a substitute designated to act for me while I am gone. If a successor is named before I go, I won't get the leave, and I think I am entitled to it."

Judge Kimball's term expired January 14, and since that time he has been acting as a hold over. Government officials say that if Judge Kimball succeeds in getting the leave, as it is reported he plans to do, his successor will not be entitled to any this year.

Government officials get thirty days a year leave with pay, but Judge Kimball succeeded some years ago in having Congress provide that judges of the Police Court be given leave of six weeks.

LIFE-SAVING CREWS MAY GET CHAPLAINS

Representative Small Introduces
Bill in House to Provide
Preachers for Stations.

A bill introduced in the House by Representative John H. Small of North Carolina provides that the President shall appoint a number of chaplains for service in connection with the Life-Saving Service, these ministers to make it their business to visit the stations, stations and preach to the life-savers.

In discussing his bill, Mr. Small pointed out that life-saving stations, as a rule, located far from settled sections, that the men had no opportunity to attend church, and that to deprive them of all religious and spiritual influences was a hardship which the Government should not impose.

It is provided that each preacher shall receive \$1,200 a year, that he shall visit each station in his circuit for at least two services a month and that he give special attention to any survivors of wrecks or other people rescued by the life savers.

Most extraordinary announcement Manufacturer's sample line of SPRING SUITS

Worth \$25 to \$45, sacrificed to us

Sale price \$18.00

OUR buyer just happened into the factory office when several big shipping cases were being opened. An inquiry brought forth the information that the firm's representative on the Western coast had just returned his line of samples after having finished his canvass of his territory. Our buyer had just given this maker a big order. He made a ridiculous cash offer for the entire lot of samples. Naturally the offer received respectful consideration at once. But it took two days to induce the manufacturer to consent to let the suits go at that price.

Isn't it an extraordinary announcement when we can say \$25 to \$45 new spring suits at \$18.00

The maker of these suits makes the majority of the better grades of suits we carry in stock regularly. The careful workmanship, the distinctive refined styles, and the fair prices all combine to make this manufacturer's suits one of the most desirable to be had. The fabrics include the most exclusive designs in domestic and foreign suitings, among which are:

- Plain serges
- Wide wale serges
- Chain diagonals
- Storm serges
- Hair-line striped serges
- Mannish tailor suitings

Some of the suits are most lavishly trimmed with braids, embroidery work and silk straps and folds. Others are most charming in their simple lines and extreme plainness. The majority are cut along strict mannish lines. The price is below all reason. Think of it—right at the season's opening here are suits worth \$25 to \$45, and to be had by those who come early enough for only \$18.00. In view of these facts it is necessary to make these restrictions:

None on approval. Extra charge for Alterations. None C. O. D.
